

Skylight Guards

A non-penetrating skylight fall protection system.

FEATURES

Meets or exceeds National and California OSHA regulations.

No drilling required; unique compression system fastens to skylight frame.

Does not compromise roof membrane or skylight weatherproofing.

Will not void your roof warranty.

Installs with basic tools in 30 minutes.

Constructed of 1/4" diameter 4" x 4" galvanized mesh.

Customizable sizes available.

Optional Skylight Demarcation Kit.

BENEFITS

- Structural load: 400lbs. minimum, in any direction to all components in accordance with California OSHA Regulations.
- Non-penetrating design eliminates possibility of damage to the rooftop, that could result from drilling.
- Uncompromised rooftop while maintaining a safe work environment for your employees.
- Protection from injuries and falls while keeping roof warranty intact.
- Fast installation
- Designed to protect against injuries and deaths around skylight openings.
- Designed to fit a wide variety of skylight shapes and dimensions (*square, rectangular, and flat*)
- Provides visual location of skylights on rooftops (*available for square, rectangular, and flat guards*).

DESCRIPTION

The Tremco Skylight Guard is specifically designed to protect against injuries and deaths around skylight openings. The non-penetrating design is available in customizable sizes and features a unique compression attachment system. It installs in minutes and since there is no drilling required, you'll keep your surfaces uncompromised while maintaining a safe work environment for your employees.
